SEWA TANZANIA

Together We Serve Better

Small Acts of Sewa. Big Change for Tanzania.

A community of Bharatiya origin, united in service to the people of Tanzania.

Founded September 2024 | Based in Tanzania

OUR STORY

Who We Are

Sewa Tanzania came together in September 2024, formed by members of the Bharatiya (Indian-origin) community who have long called Tanzania home. What began as a shared conviction — that those who have been fortunate should give back to the communities that host them — has quickly grown into a working, hands-on organisation.

The word 'Sewa' means selfless service. It is the simple idea at the heart of everything we do: showing up, rolling up our sleeves, and responding directly to the everyday needs of underprivileged communities across Tanzania.

OUR APPROACH

From Small Acts to Lasting Change

We are a young organisation, and we are proud of it. Rather than waiting to have everything figured out, we began with what we could do immediately — cleaning a beach, collecting warm clothing, fitting a school with computers. Each of these small, tangible acts builds the trust, the local relationships, and the operating experience that our broader, long-term plans for community empowerment will be built on.

Sewa (Service)	Community	Growth
Direct, hands-on action for real needs — no waiting, no red tape.	Built by and for people who call Tanzania home, together.	Starting small and deliberately building toward lasting impact.

OUR WORK

What We've Done So Far

Since our first meeting in September 2024, Sewa Tanzania has moved quickly from conversation to action. Here is a glimpse of the initiatives our volunteers and supporters have already delivered on the ground.

Beach Clean-Up Drives

Mobilising volunteers to clear litter and plastic waste from Tanzania's coastline, protecting marine life and public spaces for the whole community to enjoy.

Clothing & Essentials Donation Drives

Collecting and distributing clothing, blankets, and mattresses to underprivileged families, especially ahead of the colder months.

Groceries & Household Support

Delivering groceries and everyday essentials directly to families in under-resourced areas who need it most.

School Technology Support

Donating computers and tech infrastructure to under-resourced schools, helping students gain access to digital learning tools.

Solar Pump Installations

Installing solar-powered water pumps in schools, providing a clean and sustainable water supply to students and staff.

OUR MISSION

To serve the underprivileged communities of Tanzania through direct, honest and hands-on action, especially in the areas of healthcare, education and environment, while building the trust and local partnerships needed for lasting impact.

OUR VISION

A Tanzania where every community has access to the basic resources, education, and opportunities it needs to thrive without leaving anyone behind.

Join Us

— **Donate** — fund clean water, school, and essentials programmes.
— **Volunteer** — lend your time and hands to drives and installations.
— **Partner With Us** — as a business, school, or community associate.
